

Izvještavanje u okviru SEAP-a

Vrste izvještaja

Kada?		Sadrži	Što?
Action reporting	Svake 2 godine	Part I. Overall Strategy	Promjene u sveukupnoj strategiji
		Part III. Sustainable Energy Action Plan	Status implementacije pojedine mjere
Full reporting	Svake 4 godine	Part I. Overall Strategy	Promjene u sveukupnoj strategiji
		Part II. Emission Inventories	Inventar emisije stakleničkih plinova.
		Part III. Sustainable Energy Action Plan	Status implementacije pojedine mjere

Full reporting – Četverogodišnje izvještavanje

Covenantofmayors.eu My Covenant

Monitoring reports

The monitoring template must be submitted **every two years after the SEAP submission date**. Having in mind that reporting every two years might put too much pressure on human or financial resources, you can decide to carry out emission inventories at least every four years. In this way, you can submit every two years an **Action Reporting**, i.e. a monitoring template without a monitoring emission inventory (MEI) and focused on the reporting of the status of implementation of your actions. However, every four years you must submit a **Full Reporting**, i.e. a monitoring template which includes all the three parts.

Highlights of the collected information will be shown on-line in the Monitoring Catalogue (public website).

Download comprehensive reporting guidelines

 [Practical Guide – SEAP template and monitoring](#)

Follow the steps below (part I > II > III in this order):

- Part I - My Overall Strategy
- Part II - My Emission inventories
- Part III - My Sustainable Energy Action Plan

Select your format:

The monitoring template is available in two formats: an **off-line Excel-based spreadsheet** that can be used in most versions of Microsoft Excel, and an **on-line version** available here in the next section ('Fill in monitoring template').

Choose between the following options:

1. Fill in the on-line monitoring template

2. Choose between the following options:

 [Download in xls format ...](#) [Download in xlsx format ...](#)

3. Import the monitoring template (the Excel generated XML into the online platform)

 [Odaberi datoteku](#) Nije odabrana niti jedna datoteka. [Upload](#)

Colour codes:

- Opcionalno ispunjavanje
- Izlazne (rezultatske) ćelije
- Unaprijed popunjene ćelije

Part I – My overall strategy

1) Overall CO₂ reduction target: %
 Baseline year: %
 Reduction target type: %
 Population estimates by 2020:
 Long-term target: %
 Target year:

2) Vision
 Long term vision of the energy development in the City of Zagreb is to achieve city target regarding the reduction of CO₂ emission, by developing own local renewable energy resources and energy systems, and minimising environmental impacts.
 (Max. 700 characters)

3) Coordination and organisational structures created/assigned
 The Coordinating Body for the implementation of the Action Plan is a working body of the City Office for Energy, Environment and Sustainable Development. Along with the employees the City Office for Energy, Environment and Sustainable Development, the Coordinating Body consists of representatives of different City offices, in which measures and activities of the Action Plan are being implemented, Zagrebachi holding d.o.o. and experts who participated in the preparation and development of the Action Plan.
 (Max. 700 characters)

4) Staff capacity allocated

<p>SEAP preparation:</p> <input type="checkbox"/> Local authority <input checked="" type="checkbox"/> Local/regional energy agency <input checked="" type="checkbox"/> External consultant <input type="checkbox"/> Covenant Territorial Coordinator <input type="checkbox"/> Other	<p>SEAP implementation*:</p> <input checked="" type="checkbox"/> Local authority <input checked="" type="checkbox"/> Local/regional energy agency <input checked="" type="checkbox"/> External consultant <input type="checkbox"/> Covenant Territorial Coordinator <input type="checkbox"/> Other
--	---

Up to 100 in total for implementation of all measures
 (Max. 700 characters)
 *: at least one checkbox is mandatory

5) Involvement of stakeholders and citizens
 Different stakeholders (city offices, local government, city enterprises, Croatian Chamber of Trade and Craft – Chamber Zagreb, City of Zagreb Craftsmen Association, Croatian Chamber of Economy, Croatian Association of Employers, Croatian Automobile Club, University of Zagreb and higher education institutions, Other education and science institutions, NGOs, consumer associations) have been involved in the process of SEAP implementation.

6) Overall estimated budget for the implementation of your SEAP

<p>Budget spent so far (€)</p> <input checked="" type="checkbox"/> Local Authority* <input type="checkbox"/> Other Actors* Investment: <input type="text" value="2627000"/> Non-investment: <input type="text" value="440000"/> Total: <input type="text" value="6937000"/>	<p>Overall budget foreseen for SEAP implementation (€)</p> Investment: <input type="text" value="23210000"/> Non-investment: <input type="text" value=""/> Total implementation cost: <input type="text" value="23210000"/>
---	---

Time period: 2010 | 2013 | 4 years | 2010 | 2020 | 11 years
 (Max. 700 characters)
 *: at least one checkbox is mandatory

7) Foreseen financing sources for the implementation of your SEAP

public
 Local Authority's own resources
 National Funds and Programmes
 EU Funds and Programmes

private
 Private

City budget, Private investors, ESCO model, HBOR (Croatian Bank for Reconstruction and Development), IEE Programme, IPA Programme, FZEU (Fund for Energy Efficiency and Environmental Protection), CONCERTO programme, EU structural funds, EU cohesion funds, regional funds (EIB, KfW), State budget, Zagreb Holding, Croatian Automobile Club, HEP - Toplinarstvo (Croatian Electric power industry – heat production and supply company), revolving fund
 (Max. 700 characters)

8) Monitoring process
 Report on the implementation of the SEAP data has been submitted for monitoring in accordance to the official questionnaire for monitoring and control of the SEAP.
 (Max. 700 characters)

Please rate (little/fair/strong/not applicable) the main problems encountered during SEAP implementation, either overall or by key Covenant sector:

All sectors	Transport	Municipal	Tertiary	Residential
Limited financial sources	Strong			
Absence of / weak regulatory framework	Little			
Lack of technical expertise	Not applicable			
Lack of support from stakeholders	Little			
Lack of political support at other admin. levels	Not applicable			
Changes in the local political priorities	Not applicable			
Incompatibility with national policy orientations	Not applicable			
Immature or high cost technologies	Strong			

Additional comments
 (Max. 700 characters)

1) Overall CO₂ reduction target: 2020 target: 21%
 Baseline year: 2008
 Reduction target type: Absolute
 Population estimates by 2020: 0
 Long-term target: [] %
 Target year: Please choose

2) Vision
 Long term vision of the energy development in the City of Zagreb is to achieve city target regarding the reduction of CO₂ emission, by developing own local renewable energy resources and energy systems, and minimising environmental impacts.
 (Max. 700 characters)

3) Coordination and organisational structures created/assigned
 The Coordinating Body for the implementation of the Action Plan is a working body of the City Office for Energy, Environment and Sustainable Development. Along with the employees the City Office for Energy, Environment and Sustainable Development, the Coordinating Body consists of representatives of different City offices, in which measures and activities of the Action Plan are being implemented, Zagrebachi holding d.o.o. and experts who participated in the preparation and development of the Action Plan.
 (Max. 700 characters)

4) Staff capacity allocated
SEAP preparation:
 Local authority
 Local/regional energy agency
 External consultant
 Covenant Territorial Coordinator
 Other
SEAP implementation*:
 Local authority
 Local/regional energy agency
 External consultant
 Covenant Territorial Coordinator
 Other
 Up to 100 in total for implementation of all measures
 (Max. 700 characters)
 *: at least one checkbox is mandatory

5) Involvement of stakeholders and citizens
 Different stakeholders (city offices, local government, city enterprises, Croatian Chamber of Trade and Craft - Chamber Zagreb, City of Zagreb Craftsmen Association, Croatian Chamber of Economy, Croatian Association of Employers, Croatian Automobile Club, University of Zagreb and higher education institutions, Other education and science institutions, NGOs, consumer associations) have been involved in the process of SEAP implementation.

6) Overall estimated budget for the implementation of your SEAP
 Local Authority*
 Other Actors*
 Budget spent so far (€):
 Investment: 8627000
 Non-investment: 440000
 Total: 8977000
 Overall budget foreseen for SEAP implementation (€):
 Investment: 23210000
 Non-investment: []
 Total implementation cost: 23210000
 Time period: 2010 - 2013 (4 years) | 2010 - 2020 (11 years)
 (Max. 700 characters)
 *: at least one checkbox is mandatory

7) Foreseen financing sources for the implementation of your SEAP
 public
 private

Part III – My sustainable action plan

Sustainable Energy Action Plan

1) Title:

2) Date of formal approval:

3) Decision body approving the plan:

4) SEAP webpage:

5) Business-as-Usual projections by 2020 (if applicable):
CO₂ emissions (in t CO₂ (eq.)/a)
Final energy consumption (in MWh/a)

6) Methodological notes:

7) Estimates of the impacts of actions in 2020 in relation to:

Key Actions of the SEAP

Select / unselect action as **Benchmark of Excellence**

Minimum 3 Benchmarks of Excellences to be submitted at the monitoring stage

Key Actions	Area of intervention	Policy instrument	Origin of the action	Responsible body	Implementation timeframe		Status of implementation	Implementation cost spent so far €	Estimates in 2020			
					Start	End			Energy savings MWh/a	Renewable energy production MWh/a	CO ₂ reduction t CO ₂ /a	
MUNICIPAL BUILDINGS, EQUIPMENT/FACILITIES

Expected impacts of the actions implemented so far (completed or ongoing)

Key Actions	Area of intervention	Policy Instrument	Origin of the action	Responsible body	Implementation timeframe		Status of implementation	Estimated implementation cost (€)	Implementation cost spent so far (€)	Estimates in 2020			
					Start time	End time				Energy savings [MWh/a]	Renewable energy production [MWh/a]	CO ₂ reduction [t CO ₂ /a]	
MUNICIPAL BUILDINGS, EQUIPMENT/FACILITIES										204913	28014	54337.20	
Action 1: PVs and solar thermal collectors for health and social municipal institution	Renewable energy for space heating and hot water	Energy management	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Health and War Veterans • City office for social protection and people with disabilities	2011	2018	Ongoing	5695000	1550000	0	9344	2077	★🍃🌱
Action 2: Reconstruction of indoor lighting in 1000 primary schools classrooms	Energy efficient lighting systems	Energy management	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Education, Culture and Sports	2011	2017	Ongoing	1390000	500000	174	0	56.20	☆🍃🌱
Action 3: Reconstruction of heating systems in primary schools and kindergartens - replacement existing heating oil systems with pellets boilers	Renewable energy for space heating and hot water	Energy management	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Education, Culture and Sports	2011	2019	Postponed	1165000		0	18670	5147	🍃🌱
Action 4: Reconstruction of heating systems in primary schools and kindergartens - replacement existing heating oil systems with natural gas system	Energy efficiency in space heating and hot water	Energy management	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Education, Culture and Sports	2011	2016	Ongoing	475000	350000	1867	0	514	☆🍃🌱
Action 5: Reconstruction of thermal insulation for walls and roof for City of Zagreb municipal buildings	Building envelope	Energy management	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Education, Culture and Sports • City Office for Health and War Veterans • City office for social protection and people with disabilities • City Office for	2011	2020	Ongoing	38016000	4100000	109500	0	24346	★🍃🌱
Action 6: Installation of energy efficient doors and windows on municipality buildings	Building envelope	Energy management	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Education, Culture and Sports • City Office for Health and War Veterans • City office for social protection and people with disabilities • City Office for	2011	2020	Ongoing	27945000	3500000	28740	0	6390	☆🍃🌱
Action 7: Thermostatic radiator sets installation in all municipality buildings	Energy efficiency in space heating and hot water	Energy management	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Education, Culture and Sports • City Office for Health and War Veterans • City office for social protection and people with disabilities • City Office for	2011	2018	Ongoing	6250000	150000	43792	0	9738	☆🍃🌱
Action 8: Energy saving lamps in municipality buildings	Energy efficient lighting systems	Energy management	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • The Mayor's Office • Zagreb Holding	2010	2015	Ongoing	1390000	30000	14270	0	4608	☆🍃🌱
Action 9: Thermal insulation refurbishment for all buildings in Gornji Grad city district	Building envelope	Third party financing	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Institute for the Conservation of Cultural and Natural Heritage • City Office for Physical Planning, Construction of the	2011	2017	Postponed	2290000		6570	0	1460	🍃🌱
TERTIARY BUILDINGS, EQUIPMENT/FACILITIES										203310	71708	87432	
Action 1: Incentives for thermal insulation reconstruction for buildings	Building envelope	Grants and subsidies	Other (national, regional, ...)	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Economy, labour and enterprises	2013	2020	Postponed	625000		136700	0	30400	🍃🌱
Action 2: Incentives for RES usage in existing tertiary buildings	Renewable energy for space heating and hot water	Grants and subsidies	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Economy, labour and enterprises	2013	2020	Ongoing	4167000	40000	0	68350	15200	☆🍃🌱
Action 3: Incentives for buying energy efficient electrical devices for existing tertiary buildings	Energy efficient electrical appliances	Grants and subsidies	Other (national, regional, ...)	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Economy, labour and enterprises	2014	2020	Not started	2085000		30155	0	9740	🍃🌱
Action 4: Energy savings lamps in all tertiary buildings	Energy efficient lighting systems	Other	Not possible to say	• City of Zagreb • City office for Energy, Environment and Sustainable Development • REGEA	2014	2020	Not started	0		30155	0	9740	🍃🌱
Action 5: Incentives scheme for new tertiary buildings with thermal characteristic better than prescribed in existing relevant regulations	Integrated action (all above)	Building standards	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Physical Planning, Construction of the City, Utility Services and Transport	2014	2020	Not started	416700		4200	0	930	🍃🌱
Action 6: Incentives scheme for RES usage in new tertiary buildings	Renewable energy for space heating and hot water	Grants and subsidies	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Physical Planning, Construction of the City, Utility Services and Transport	2014	2020	Not started	416700		0	3356	745	🍃🌱
Action 7: Incentives for buying energy efficient electrical devices for new tertiary buildings	Energy efficient electrical appliances	Grants and subsidies	Other (national, regional, ...)	• City of Zagreb • City office for Energy, Environment and Sustainable Development	2014	2020	Not started	695000		2100	0	677	🍃🌱
RESIDENTIAL BUILDINGS										474283	195108	287182	
Action 1: Incentives for residential buildings thermal insulation reconstruction	Building envelope	Grants and subsidies	Other (national, regional, ...)	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Physical Planning, Construction of the City, Utility Services and Transport • Zagreb Holding	2015	2020	Not started	3089000		44500	0	98910	🍃🌱
Action 2: Subsidies for solar thermal collectors and PVs for residential houses/apartments in City of Zagreb	Renewable energy for space heating and hot water	Grants and subsidies	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • REGEA	2011	2020	Ongoing	2333000	300000	0	12114	2694	☆🍃🌱
Action 3: Subsidies for replacement of existing heating oil boiler systems with pellets boilers system, heat pumps and pyrolytic boilers in residential houses/apartments	Energy efficiency in space heating and hot water	Grants and subsidies	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • REGEA	2012	2020	Ongoing	2320000	100000	0	166020	45780	☆🍃🌱
Action 4: Subsidies for implementation of heat energy measurement in every residential houses/apartments connected to district heating	Energy efficiency in space heating and hot water	Grants and subsidies	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • HEP - Toplinarstvo • REGEA	2011	2015	Postponed	7680000		263060	0	64150	🍃🌱
Action 5: Solar thermal collectors and thermal envelop and roof insulation for building in city district Zapruđe	Building envelope	Grants and subsidies	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • Zagreb Holding • REGEA	2013	2018	Postponed	528000		4930	0	1095	🍃🌱
Action 6: ZG FACTOR 10 - Energy efficiency building refurbishments in Trnsko city district	Building envelope	Grants and subsidies	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • Zagreb Holding • The Faculty of Architecture of the University of Zagreb	2013	2020	Postponed	792000		4200	0	843	🍃🌱
Action 7: Incentives for buying energy efficient electrical devices	Energy efficient electrical appliances	Grants and subsidies	Other (national, regional, ...)	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Economy, labour and enterprises • REGEA	2013	2020	Postponed	4860000		49340	0	15940	🍃🌱
Action 8: Energy savings lamps in all residential buildings	Energy efficient lighting systems	Other	Other (national, regional, ...)	• City of Zagreb • City office for Energy, Environment and Sustainable Development • Zagreb Holding	2011	2016	Ongoing	0		98653	0	31875	☆🍃🌱
Action 9: Incentives for solar thermal collectors in new residential buildings	Renewable energy for space heating and hot water	Grants and subsidies	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • City Office for Strategic Planning and Development of the City • REGEA	2011	2012	Postponed	2500000		0	16974	3774	🍃🌱
Action 10: Incentives for constructing energy and passive residential buildings	Integrated action (all above)	Grants and subsidies	Local authority	• City of Zagreb • City office for Energy, Environment and Sustainable Development • REGEA	2012	2020	Postponed	2780000		9540	0	2121	🍃🌱

Synthesis report

Your SEAP implementation progress

1) Status of implementation of actions

2) Overall budget spent

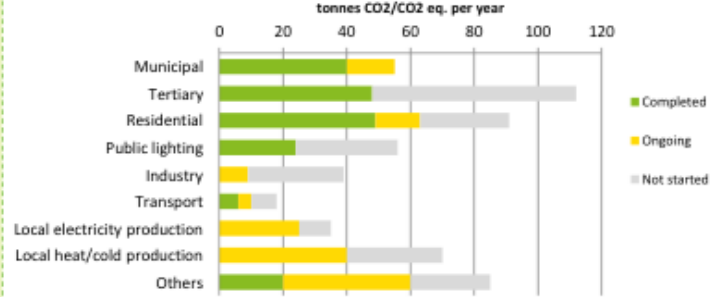

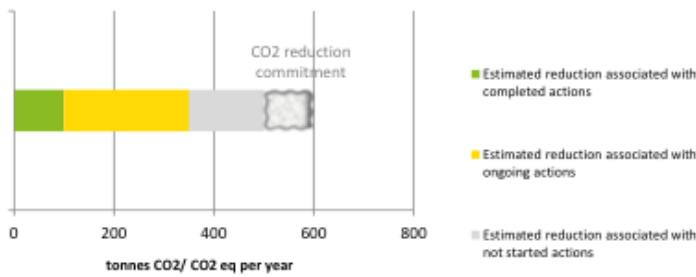

3) Money spent per sector

4) Estimated greenhouse gas emissions according to the implementation status of the actions

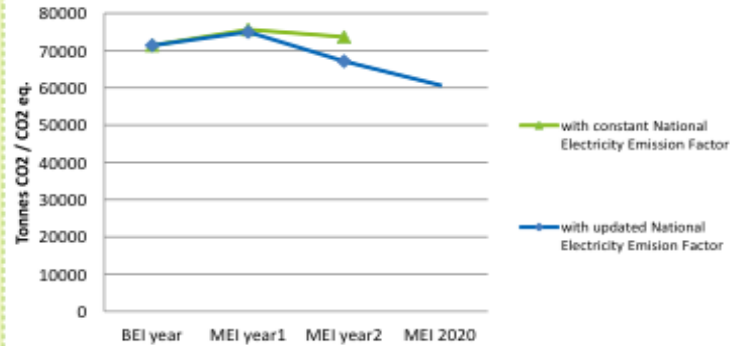

Your performance towards energy sustainability

5) Greenhouse gas emissions and final energy consumption per capita

6) Greenhouse gas emissions (influence of the National Electricity Emission Factor)

7) Greenhouse gas emissions per sector

8) Final energy consumption per sector

9) Final energy consumption per energy carrier

* Renewables - for non-electricity uses.

** The energy mix of heat/cold and electricity is not identified.

10) Local energy production

Share of local energy production to overall final energy consumption

7%

Electricity

Heat/cold
